

- **MEASUREMENT** As in years past, a Measurement Form has been provided so that some/many items can be checked and measured prior to arrival at TAYC. This will greatly reduce the measurement time at the regatta site. If you have been measured-in for a previous nationals, and not performed any modifications or repairs to the boat or rig, only the following will need to be measured: 1) boat weight, 2) new sails (previously measured sails will be checked for stamp), and 3) safety equipment.

- **TAYC ACTIVITIES** TAYC is a very active club providing a large junior sailing program and social functions on a daily basis. During the Jet 14 Nationals, the following club events will be taking place:
 - Wednesday, August 4: jr. sailing
 - Wednesday nite dinner
 - Thursday, August 5: jr. sailing
 - Friday, August 6: jr. sailing
 - Friday nite racing (start and finish at TAYC—fun to watch!)
 - Sails & Ales dinner

It is requested that the Jets attempt to remove their cars from the club lot (additional parking is available immediately outside the gate, and in the public lot at the ferry adjacent to TAYC) prior to Wednesday and Friday evenings to make room for the club members. Friday especially will be crowded. Thanks in advance!
